

C 110

Conference and office chair with mesh or fully upholstered back

One back. Five frames. From meeting room to desk.

Office swivel base · Full upholstery

C 110

The C 110 is a versatile chair with a slim mesh back or a comfortable fully upholstered back and fixed armrests. Five frame variants make it a consistent seating solution for meeting rooms, reception and the desk.

Five frame variants cover everything from a short meeting to all-day desk use: the swivel pyramidal base (with or without castors) has a fixed seat height, while the fully equipped office swivel base with gas-lift and 5-star castor base is infinitely height-adjustable and offers classic office chair comfort. For row seating and conference rooms, the 4-leg and sled base are available as stackable fixed frames — both in black or chrome.
