

C 12

Four-leg stackable chair with beech plywood shell

Light. Stackable. Row-ready.

C 12

The C 12 is a robust four-leg stackable chair with an ergonomically shaped beech plywood seat shell. Stackable, row-linkable and optionally available with seat or backrest upholstery.

The 10.5 mm beech plywood seat shell is ergonomically shaped and available in two finishes: natural beech lacquered or black stained.

The steel tube frame (ø 20 mm) is available chrome-plated or powder-coated in RAL colours. The integrated row-linking system enables stable seating arrangements in rows — without additional parts.

Available as a four-leg stackable chair or sled base. Optionally with upholstered seat panel, backrest panel or full upholstery.

Gemeindeaal · Reihenbestuhlung
