

C 28

Mobile Multi-Purpose Chair

Softly padded. Always on the move.

C 28

The C 28 is a comfortable multi-purpose chair with a softly padded seat and four castors. With a four-leg frame in white or chrome, it adapts effortlessly from office and training room to hospitality environments.

The C 28 combines seating comfort and mobility in a clear, timeless form. The softly padded seat ensures pleasant seating even during extended use — whether in a meeting room, training room or restaurant. Four castors allow effortless repositioning without lifting the chair.

The four-leg frame is available in white powder-coated or chrome-plated finish, adapting to a wide range of interior concepts. An optional round side table on a swivelling chrome arm moves with the seat — practical for a laptop, drink or documents.

The upholstery can be selected in fabric, faux leather or leather.
