

C 32

Tub-shell armchair for office and conference

One shell. Six frames. Unlimited configuration.

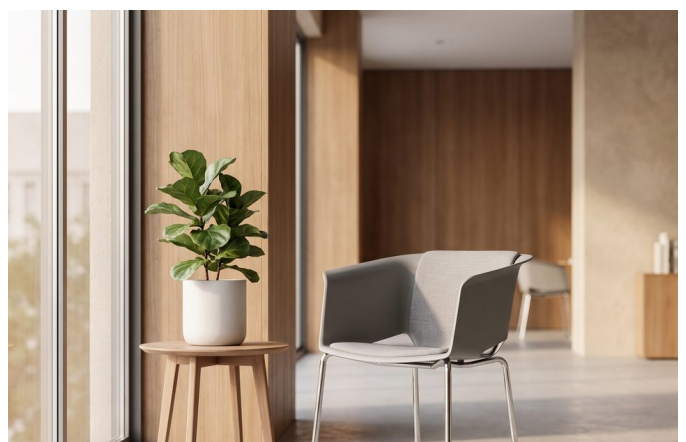

C 32

The C 32 is a tub-shell armchair with a distinctive form — curved, enclosed, full of character. The shell made of glass-fibre reinforced polyamide combines clear design with practical versatility: six frame variants, four upholstery levels and an optional writing tablet make it a flexible companion for office, education and conference use.

The C 32 impresses with its enclosed tub shape and flowing armrests — a chair with posture. The one-piece shell of glass-fibre reinforced polyamide is available in several colours and robust enough for intensive multi-hour use.

Six frame variants cover the full spectrum: from a warm wooden frame to elegant chrome tubing and slim sled bases, to the swivelling 4-star base and the fully equipped office swivel base with castors and height adjustment.

C 32

Up to four upholstery levels — none, seat only, seat and back, or full upholstery — plus an optional writing tablet on the left or right make the C 32 a true all-rounder for contemporary workplaces.
