

C 88

Colourful stackable chair for indoor and outdoor use

Seven colours. One chair. Everywhere at home.

C 88

The C 88 Nina is a four-legged stackable chair made of polypropylene — lightweight, robust and available in seven vivid colours. With clean lines and an ergonomically shaped seat shell, it fits just as naturally into offices and educational spaces as into hospitality, hotels and outdoor areas. Optionally available with an upholstered seat pad and as an armchair.

The C 88 Nina combines clean design with practical versatility.

The four-leg polypropylene frame is stackable and weather-resistant — ideal for spaces that need to adapt quickly. The seat shell is ergonomically shaped and can optionally be fitted with an upholstered inner seat.

Available as a chair (C 88) or as an armchair with armrests (C 88 A), each in seven carefully coordinated colours — from classic white and black through muted anthracite to blue, brick red, mustard yellow and sage green.

C 88 — Specifications

- stackable up to 8 units
- with or without armrests
- UV-stabilised PP + glass fibre, recycled and recyclable
