CM 6

Sheet-steel cable tray that hooks onto the table crossbar

Order under the top. No drilling.

CM 6

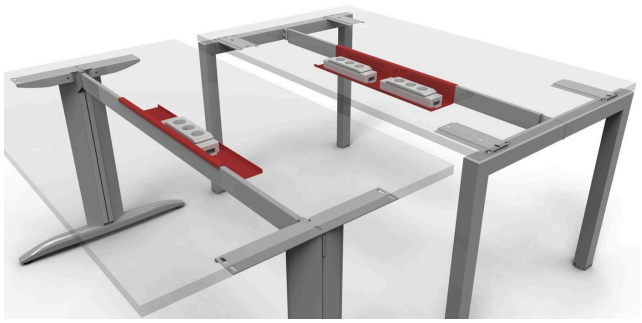

The CM 6 is a cable tray made of 1 mm sheet steel that hooks directly onto the crossbar of the table frame. Power strips, power supplies and excess cable disappear under the table top – neatly routed and accessible at all times. Available in 600 and 1200 mm lengths, powder-coated in black or white.

The CM 6 sits where the cables arrive: on the crossbar, centrally under the top. The folded back wall with its hook profile is hung over the crossbar; the tray can additionally be fixed under the table top via Ø 7 mm holes. The 112 mm wide base and 63 mm height take power strips, media modules, power supplies and cable slack; the upstand at the front keeps everything in the tray.

The 600 mm version suits single workstations and small meeting tables, the 1200 mm version bench workstations and conference tables. On the 1200 mm tray the hook profile has a central 22 mm notch, e.g. for a centre support or a cable pass-through.

Technical data at a glance: - Material: 1 mm sheet steel, powder-coated - Colours: black or white - Lengths: 600 mm (actual length 590 mm) or 1200 mm - Cross-section: depth 129 mm, height 63 mm, base width 112 mm - Fixing: hooks onto the crossbar, additional Ø 7 mm holes (600 mm: 3, 1200 mm: 4) - Weight 600 mm: approx. 0.97 kg

CM 6 — Specifications

- hooks onto the crossbar without tools
- can additionally be fixed under the top
- room for power strips and power supplies
- front upstand
- 600 or 1200 mm
- powder-coated black or white

Dimensions

Length	**600 / 1200 mm**
Actual length, 600 version	**590 mm**
Overall depth	**129 mm**
Base width	**112 mm**
Overall height	**63 mm**
Hook profile (width / fold)	**18 / 11 mm**
Front upstand	**11 mm**
Material thickness	**1 mm**
Weight, 600 version	**approx. 0.97 kg**

All dimensions according to the manufacturer's drawing, see dimension drawing (cross-section). On the 1200 mm version, central 22 mm notch in the hook profile.
