

FT 18

Folding table for seminar and conference

Set up in seconds. Stored in minutes.

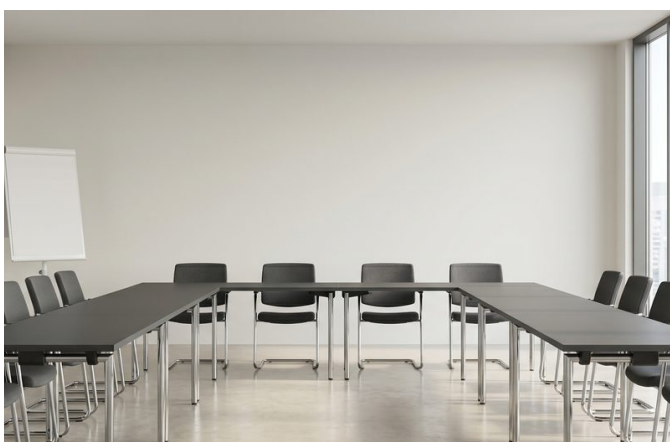

FT 18

The FT 18 is a folding table for meetings, training and conference use.
Its unique feature: the legs fold alternately to opposite sides.
This allows them to interlock when stored, resulting in a low stacking height.

The alternating folding mechanism achieves a stacking height of approx. 100 mm — significantly more compact than conventional folding tables. Multiple tables can be stored with minimal space in a storage room, corridor or behind a partition.

Chrome-plated steel tube legs and a durable melamine top make the FT 18 a reliable partner for seminars, training rooms and public authorities.

FT 18 — Specifications

- foldable
- minimum table length 800 mm
- stacking height approx. 100 mm
- row-connectable
- space-saving storage
- optional castors

Dimensions

Table width	800–2000 mm
Table depth	700 / 800 mm
Table height	approx. 740 mm
Stacking height	approx. 100 mm

Custom dimensions on request.

Options

- Cable ducts
- Media integration
- Front panels
- Transport and stacking trolley

Materials & Colours
