

FT 4

Flip-top folding table

Open in seconds. Stored in moments.

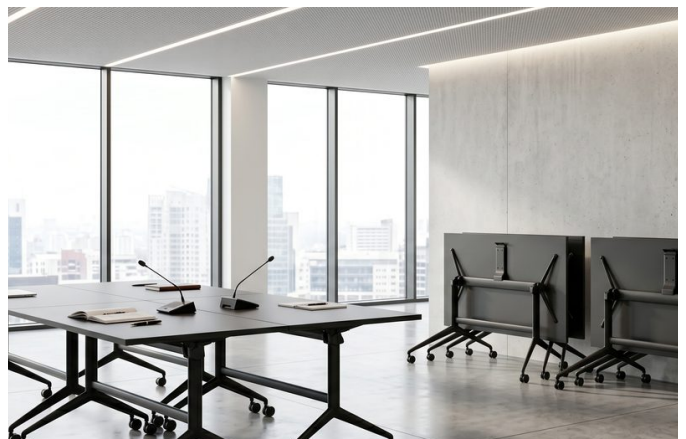

FT 4

The FT 4 is a flip-top table with a patented flipper mechanism: the tabletop swings vertical and multiple tables nest compactly side by side. Ideal for seminar and conference rooms that need to be quickly reconfigured.

The FT 4 combines functionality with compact storage. The flipper mechanism allows the tabletop to swing vertical with a single action – multiple tables then line up compactly without trolleys or disassembly.

The underframe runs on castors (optional brake) for effortless repositioning. The 25 mm top is available in melamine and HPL, with other surfaces such as linoleum or Fenix NTM on request. Standard widths 140 cm and 160 cm, depth 70 and 80 cm – custom sizes on request.

FT 4 — Specifications

- flip-top mechanism: top swings vertical for nesting
- mobile (4 lockable swivel casters)
- compact nesting without equipment
- 25 mm top in melamine or HPL
- widths 140 cm / 160 cm, depths 70 cm / 80 cm
