

FT 8.1

Folding table with T-leg

Slim classic. Always ready.

FT 8.1

The FT 8.1 is a proven folding table with an elegant T-leg frame in chrome-plated steel tube – slimmer and lighter than the FT 8, yet equally robust. The easy-to-use safety folding mechanism allows fast setup, and the tables stack compactly on transport trolleys.

The FT 8.1 combines the proven folding table concept with a particularly slim T-leg frame. The chrome-plated steel tube profile looks light and premium – in practice, the table stands firmly and withstands daily use in schools, offices and event venues.

The safety folding mechanism locks securely in the open position and releases with a single action – no force, no tools required. Integrated stacking protection preserves surfaces during storage on the transport trolley.

Tabletops in standard sizes (120–200 cm × 60–80 cm) and custom dimensions, available in lightweight, particleboard or solid core. Surfaces in melamine, HPL, veneer, linoleum or Fenix NTM. Special shapes on request: trapeze, boat-shaped, ellipse, circle, semicircle.

FT 8.1 — Specifications

- T-leg frame, chrome-plated – slim and robust
- safety folding mechanism with locking
- stacking protection for surface care
- top widths 120–200 cm, depth 60–80 cm
