

FT 8

Folding table with double T-leg

Flexible. Stackable. Always ready.

FT 8

The FT 8 is a proven folding table with a robust double T-leg frame in steel tube – timeless, functional and durable. Safety folding mechanism and stacking protection ensure fast setup and careful storage. Up to 10 tables stack on one transport trolley.

tube – chrome-plated or powder-coated – provides exceptional stability even under heavy loads and frequent rearrangement.

The self-adjusting safety folding mechanism locks securely in the open position and releases tool-free with a single action. Integrated stacking protection preserves surfaces during storage on the transport trolley.

Tabletops in custom dimensions (120–200 cm × 60–80 cm), available in lightweight, particleboard or solid core. Surfaces in melamine, HPL, veneer, linoleum or Fenix NTM. Edge options: flat or high solid edge (50 or 70 mm). Special shapes on request: trapezoidal, boat-shaped, ellipse, circle, semicircle.

FT 8 — Specifications

- double T-leg frame, exceptionally stable
- self-adjusting safety folding mechanism
- stacking protection for surface care
- up to 10 tables on one transport trolley
- top widths 120–200 cm, depth 60–80 cm
- surfaces melamine, HPL, veneer, linoleum, Fenix NTM
- special shapes: trapeze, boat shape, ellipse, circle, semicircle
- matching transport and storage trolleys (TTW)

Dimensions

Table height	740 mm
Top width	1200–2000 mm
Top depth	600–800 mm
Top thickness	25 mm

Standard widths 120–200 cm, depth 60–80 cm. High solid edge 50 or 70 mm available. Custom sizes and shapes on request.

Options

- High solid edge 50 mm or 70 mm
- Special shapes: trapeze, boat shape, ellipse, circle, semicircle
