

HC 19

Bar stool with PP shell

The C 19 shell, now at bar height.

HC 19

The HC 19 brings the light, ergonomically shaped PP seat shell of the C 19 to bar height. Available with a four-leg or sled base – chrome-plated or powder-coated, in the 5 familiar shell colours.

The HC 19 is the consistent extension of the C 19 into bar-height territory: the same seat shell, the same design language – just at bar and standing-table level. The PP shell is available in 5 colours: White, Black, Marsala, Powder Blue and Tobacco.

The steel tube frame is available chrome-plated or powder-coated in any RAL colour. The four-leg version has a stabilising cross-brace for a secure stand at counters and standing tables. The sled base version offers the same calm, elegant look as the C 19 – just higher up.

The HC 19 finds its place at the bistro counter, in lounge areas, at standing tables and in the canteen – wherever the C 19 belongs.

HC 19 — Specifications
