

HC 28

Bar Stool with Seating Comfort

Softly padded. Always at eye level.

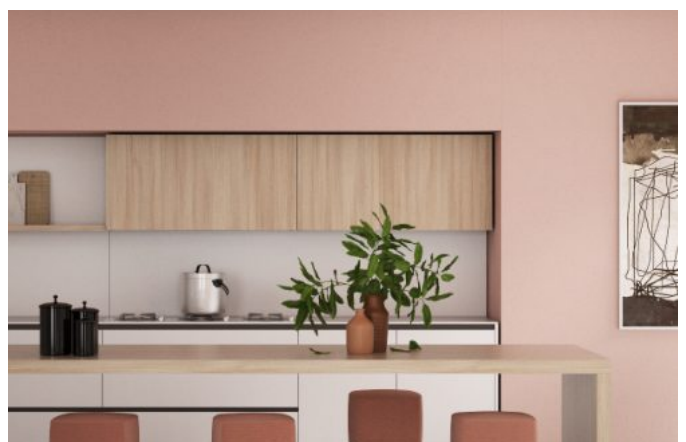

HC 28

The HC 28 brings the softly padded seating comfort of the C 28 family to bar height. The fixed four-leg frame with a stabilising cross-brace ensures a secure stand at counters, standing tables and bar areas — in white or chrome.

The HC 28 is the stationary bar-stool variant of the C 28 family: the same softly padded seat, mounted on a fixed four-leg frame with a stabilising cross-brace. Non-slip glides instead of castors provide a secure footing wherever mobility isn't required — at the counter, a standing table, or the bar area of a restaurant.

The frame is available in white powder-coated or chrome-plated finish, adapting to a wide range of interior concepts — from an open kitchen to a hotel lobby.

The upholstery can be selected in fabric, faux leather or leather.
