

HT 2

Standing table for conference and communication

Slim in profile. Strong in configuration.

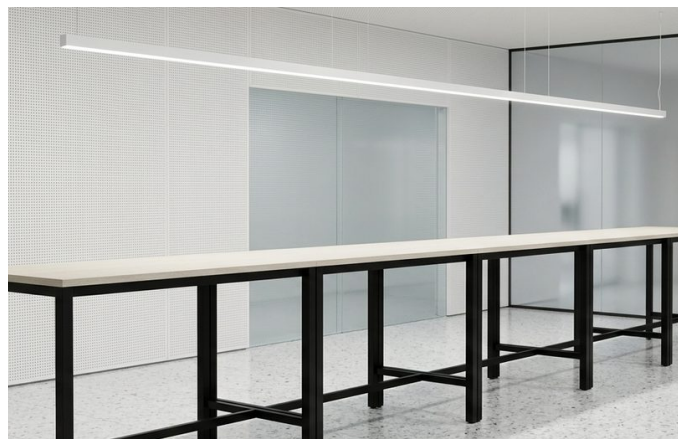

HT 2

The HT 2 is a clean-lined standing table with a slim steel frame based on the K65 system. For single use or linear conference formations up to 4 metres and beyond – available in melamine, laminate, linoleum and veneer.

Standing tables organise communication. The HT 2 does this without distraction: clean lines, a robust steel frame and a tabletop that adapts to every project.

The frame is based on the K65 system – a profiled steel frame in black (RAL 9005) or white (RAL 9010), powder-coated and optimised for stability. Working height is a consistent 1080 mm – ergonomic for standing meetings of any duration.

Tabletops in 800 mm or 1000 mm depth, widths from 1200 mm to over 4200 mm – as a single table or for linear conference formations. Surfaces in melamine, HPL laminate, linoleum, veneer and further decors. Optionally with castors for flexible positioning.
