

OC 75

Office swivel chair with mesh back

Ergonomic. Light. In three versions.

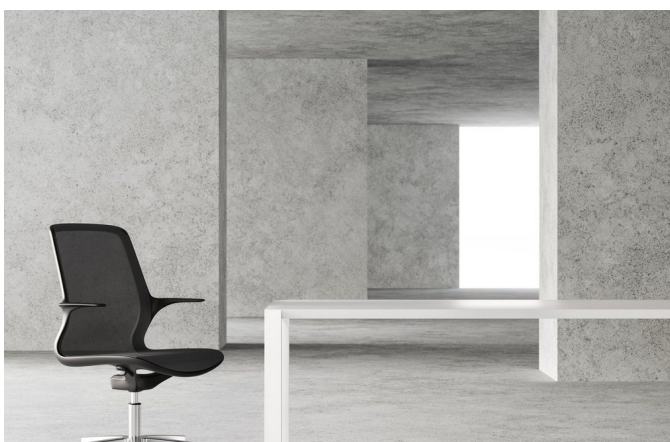

OC 75

The OC 75 is a modern office swivel chair with mesh back or fabric upholstery. The shell is available in black or white, the base in polished aluminium. Synchro mechanism with seat height adjustment, fixed armrests, optionally as castor or visitor version.

The OC 75 combines a light, organically shaped silhouette with thoughtful ergonomics for daily office use. The fine mesh back provides ventilation and adapts to movement; alternatively the seat shell is available with fabric upholstery.

The plastic shell is available in black or white and forms a clear, uninterrupted line together with the fixed armrests. The polished aluminium base runs on quiet twin castors.

The OC 75 is available in three versions: as a castor chair with synchro mechanism in standard or raised seat height (variants A/B), and as a visitor/conference version on a more compact 4-star base (variant E).
