

OC 86

Office chair · Design Alegre Design

Light. Precise. All day long.

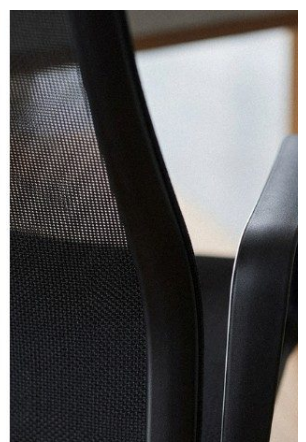

OC 86

The OC 86 is an office chair designed for light-office environments — moulded from polyamide, upholstered with SHRINX thermonet and equipped with a precise tilt mechanism. Available as high-back or low-back, with or without armrests.

The OC 86 (Design: Alegre Design) impresses with its consistently lightweight construction: all load-bearing components are made of polyamide, the backrest is upholstered with SHRINX thermonet — a heat-shrunk mesh that adapts to the back contour and maintains permanent tension.

At the heart of the chair is a tilt mechanism with 7° forward tilt and 10° backward tilt — lockable in 3° increments. Seat height infinitely adjustable via gas spring.

Available as high-back or low-back, each without armrests or with plastic or aluminium armrests. Frame black or white, mesh dark grey or black, star base in plastic or aluminium.

OC 86 — Specifications

- Tilt mechanism 7° forward / 10° backward, lockable at 3°
- Infinitely adjustable seat height via gas spring
- High-back (D33) or low-back (D32)
