

T 122

Worktable and meeting table

Solid base. Versatile use.

T 122

The T 122 is a robust worktable and meeting table on the proven K2 T-foot frame – stable, low-maintenance and freely configurable. No folding mechanism, designed for permanent installation in offices and administration.

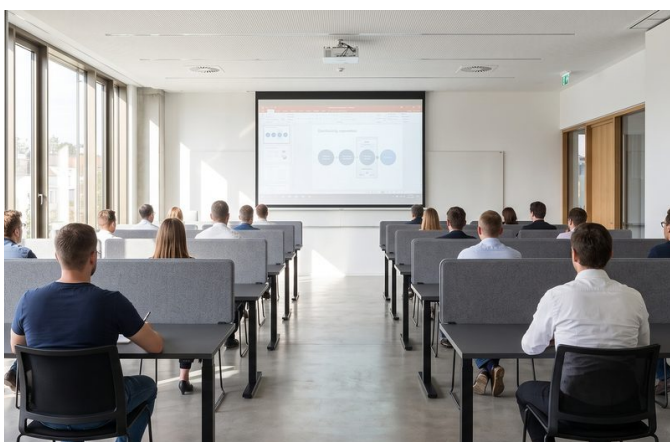

The T 122 is built on the solid K2 T-foot underframe – designed as a permanently installed worktable and meeting table without any folding mechanism.

The slim T-foot profile in steel tube appears light and premium, while providing exceptional stability for daily use in offices, administration and education.

The tabletop is available in standard widths from 700 to 1800 mm and depths from 600 to 800 mm. Available in melamine, HPL, veneer, linoleum or Fenix NTM.

Edges square or solid wood edge. Custom shapes on request.

Optional desk screens (acoustic), media modules POINT (power/USB), cable trays and modesty panels complete the T 122 into a full workstation system.
