

T 49

Central column table with squircle top and bombé base plate

One base. Three heights. Classic in every setting.

T 49

The T 49 is a central column table with a distinctive squircle tabletop (rounded square) and a column base featuring a flat, gently curved bombé foot plate. Ideal for gastronomy, corporate dining, hotels and meeting rooms.

The T 49 features a slender square-profile column on a flat foot plate with gently swept corners — the characteristic bombé detail that gives the whole family its name. Available in black (RAL 9005) or other RAL colours on request.

The squircle tabletop combines the generosity of a round surface with the space efficiency of a square format. Standard 70 × 70 cm, further formats on request. Surfaces: melamine, HPL, linoleum, veneer or ceramic.

T 49, LT 49 (side table, 520 mm) and HT 49 (standing table, 1050 mm) share the same base design and can be freely combined in any space.
