

T 53

Round table with tulip base

Clear form. Round effect. Three heights.

T 53

The T 53 is a round contract table with an elegant tulip base in powder-coated or chrome-plated steel. The circular tabletop (Ø 555 mm) and the characteristic trumpet base combine timeless design with high stability in contract use.

The tulip base of the T 53 consists of a one-piece steel trumpet column with a wide base plate — a classic in contract furniture that works equally well in gastronomy, lounge and bistro settings. The round shape invites people to sit together and creates no corners to obstruct traffic flow.

The circular tabletop (Ø 555 mm) is available in various surfaces: melamine, HPL, veneer or high-pressure laminate. The base is powder-coated in black or white; additional RAL colours on request.

T 53 (H 710 mm), LT 53 (H 450 mm) and HT 53 (H 1070 mm) share the same base aesthetic and can be freely combined — from lounge level to dining table to standing discussion.
