

T 8

Seminar table with double T-leg

Stable. Versatile. Always ready.

T 8

The T 8 is a proven seminar table with a robust double T-leg frame in steel tube – timeless, functional and durable. Optionally available with castors for maximum flexibility in reconfigurable spaces. Tabletops in custom dimensions and surfaces.

The T 8 combines robustness with maximum design freedom. The double T-leg frame in steel tube – chrome-plated or powder-coated – provides exceptional stability even under heavy loads and frequent use.

Unlike the foldable FT 8, the T 8 is a classic fixed seminar table for permanent installation concepts. Optionally fitted with castors, it can still be repositioned effortlessly – ideal for spaces that regularly need to be reconfigured.

Tabletops in custom dimensions (120–200 cm × 60–80 cm), available in lightweight, particleboard or solid core. Surfaces in melamine, HPL, veneer, linoleum or Fenix NTM. Edge options: flat or high solid edge (50 or 70 mm). Special shapes on request: trapezoidal, boat-shaped, ellipse, circle, semicircle.
